### MIAMI.

Producing at the Rate of 40,000,000 Pounds Annually.

It is stated that the Miami Copper company is producing at a rate of about 40,000,000 pounds a year, at cost of about nine cents a pound delivered at New York, which at a selling price of over 14 cents net, would yield five cents a pound profit, or about \$2,000,000 a year. This leaves \$500,000 above the requirements of the regular \$2 dividend.

An increase in production to 50,000,000 pounds per annum is expected in the not distant future, which, at a cost of 8 1/2 cents a pound and selling at 14 1/2 cents a pound would mean a profit of \$3,000,000, or practically \$4 a share a year. About 20,000,000 tons of 2.45 per cent good quality ore is reported in sight, with expectations of very much larger quantities.

### HEAVY CATTLE SHIPMENT.

Arrival—Heavy shipments of cattle are being more from ranches in the southern part of Pima county. The Arivaca Land and Cattle company and its neighbors shipped 1800 head Wednesday, Miller & Lux being the purchasers. There have been 2,800 head shipped by La Osa, Robles

### MONEY FOR SCHOOLS.

Phoenix—The state revenue from the rental of school lands for the year ending March 15, 1914, amounted to \$19,795.19, and this amount was turned over by the land commission to the state treasurer. The money is that received from those lands on which permits or leases were issued for the last year, and added to what has been recently received from timber, makes a tidy little sum for the state's strong box. It is the dull season of the year as far as revenue collecting is concerned.

### NOTICE TO CREDITORS.

Estate of Frank J. Hamlin, deceased. Notice is hereby given by the undersigned Administrator of the Estate of Frank J. Hamlin, deceased, to the creditors of and all persons having claims against the said deceased, to exhibit them, with the necessary vouchers, within four months after the first publication of this notice to the said Administrator at his office, 57 North Church Street, Tucson, Arizona, the same being the place for the transaction of the business of said estate.

JAMES R. DUNSEATH,  
Administrator of the Estate of Frank J. Hamlin, deceased.  
Dated Clifton, Arizona, this—day of May, 1914.  
5-29-5t-c

### MINERAL APPLICATION No. 025062

Survey No. 3100.  
United States Land Office.  
Phoenix, Arizona, May 7th, 1914.  
Notice is hereby given that in pursuance of the Act of Congress approved May 10, 1872, The Arizona Copper Company, a corporation duly organized and existing under the laws of the Territory (now State) of Arizona, by its attorney-in-fact, C. W. Beck, whose postoffice address is Clifton, Greenlee County, Arizona, has made application for patent for the STELLA No. 2 lode mining claim situated in the Greenlee Gold Mountain Mining District, County of Greenlee, State of Arizona, in Section 28, Township 38, Range 29E, unsurveyed, described as follows, to-wit:

Beginning at Cor. No. 1 whence U. S. L. M. No. 2 bears S. 46° 07' E. 2260 ft.; thence N. 79° 37' W. 1500 ft. to Cor. No. 2; thence N. 29° 35' E. 590.50 ft. to Cor. No. 3; thence S. 78° 50' E. 1492.12 ft. to Cor. No. 4; thence S. 29° 35' W. 577 ft. to Cor. No. 1, place of beginning.

Adjoining and conflicting claims as shown by the plat of survey are the Little Mammoth Mine and Little Stella lodes, Sur. No. 2484; the Limestone and Alaska lodes, Sur. No. 1087, and the Maresca lode unsurveyed.

That portion of said Stella No. 2 lode in conflict with the Limestone lode, Sur. No. 1087, as shown by the plat of survey, is hereby excluded from this application.

THOMAS F. WEEDIN,  
Register.

—22—3t.

**THE CORPORATION DIFFERENT.**  
Denver, Colo., May 29—It was announced today by The Mountain States Telephone and Telegraph company that leaves of absence will be granted to any of its employees who desire to enter the military or naval service of the United States in time of war, and that the time thus devoted could not affect in any way the employees' standing under the pension plan.

This is another evidence of the spirit of friendliness that animates the "Corporation Different" in its relation to its employees. Over 6,000 people are affected in the seven Mountain States.

**LARGE CANTALOUPE CROP.**  
The cantaloupe crop in the Salt River Valley will this year cover over 2,000 acres. Contracts for large shipments to important Eastern cities have already been made.

**BORINGS FOR OIL.**  
Borings for oil are being carried on in several parts of the State. The Tonto Basin is now being explored, with many indications of success. The discovery of oil in quantity will be of very great benefit to all parts of Arizona.

**GREAT INCREASE IN DOUGLAS SMELTER OUTPUT.**

The copper output of the two Douglas smelters last month exceeded that of any previous month in their history, being due to the handling of the Miami concentrates by the Copper Queen smelter. Approximately twenty one million pounds of copper was turned out at the two big plants.

The Copper Queen's total was 13,830,000 pounds of which the company ores furnished about 7,750,000 pounds. The rest of approximately fourteen million pounds comprises Miami, Moctezuma Copper company, and customs ores.

The C. & A. smelter output was 6,500,000 pounds. Of this amount about 1,200,000 pounds is to be credited to the Shattuck-Arizona ores.

### MORMON MISSION.

Mesa—Ten acres on the Salt River Indian reservation, north of Mesa, has been set aside by the government as a Mormon mission farm. A pumping plant is being installed and Bishop De Frieze, who has charge of mission work among the Indians intends to show the redskins a few things about model farming. A pump is being installed and a 5-room house is being erected for the bishop and his family.

### GET SCHOOL BONDS.

Safford—Monday, May 25, will go down in history as the greatest day that the people of Safford school district No. 1 have ever known, and the epochal event was the elections that were held for the purpose of deciding whether bonds in the aggregate amount of \$40,000 be issued for the purpose of purchasing a site, erecting a school house for high school purposes thereon and equipping same.

### ARIZONA BECOMING FAMED ASBESTOS PRODUCER.

WASHINGTON, June 9.—A notable event of the year in the asbestos industry of the United States, says a report made public today by J. S. Diller of the United States geological survey on the production of asbestos in 1913, has been the opening of a new locality in Arizona, about thirty miles northeast of Globe, for the high-grade chrysotile, such as occurs in the depths of the Grand Canyon. In occurrence, origin, quality and quantity this deposit is essentially the same as that of the Grand Canyon district, but it is much more accessible, being in a canyon about 800 feet deep and within thirty miles by trail and wagon road from the railway. It is associated with limestone and in this respect is strongly contrasted with the asbestos of Canada, which is found in serpentine rock, derived from peridotite. The remarkable fiber from Arizona when twisted to a yarn 0.03 of an inch in thickness will support an average weight of 15 1/2 pounds. Its content of iron is decidedly lower than that of the Canadian fiber, and for that reason it is better for insulating purposes. The survey report on asbestos contains a map and section of the Arizona deposit and may be obtained free on application to the director of the geological survey.

### ARIZONA SHEEPMEN HAVE BUMPER SEASON.

Never have the sheepmen of Arizona enjoyed a more satisfactory season than the one just closing, according to Hugh E. Campbell, president of the Arizona Wool Growers' Association. Mr. Campbell has just returned from a month's trip through the northern part of the state and is well informed on range conditions. The season's clip was approximately 8,000,000 pounds, the same as for the preceding season. But the quality was much better, owing to the mildness of the winter and an abundance of feed, and prices were much higher than in 1913-14. The growers received an average of 22 cents a pound, f. o. b. Boston, which was nearly 25 per cent more than the average for the preceding season. Though there have been no heavy rains in any quarter, range conditions are good. There is an abundance of feed and if there are reasonably good summer rains the sheepmen are certain of another prosperous season.

### TOOK WRONG TABLETS.

Flagstaff—Mrs. E. H. Oldham, wife of Forest Ranger Oldham, at Hull Tank took a number of mercury tablets Friday mistaking them for headache tablets. When she began to feel the effects of the medicine she was informed by a physician that she had taken the wrong tablets. She was immediately taken to Flagstaff for treatment and is now well on the way to recovery. The mercury tablets were administered by a physician who happened to be stopping at El Tovar. The physician of the emetic probably saved Mrs. Oldham's life. She was immediately taken to Flagstaff for treatment and is now well on the way to recovery. The mercury tablets were administered by a physician who happened to be stopping at El Tovar. The physician of the emetic probably saved Mrs. Oldham's life. She was immediately taken to Flagstaff for treatment and is now well on the way to recovery.

### COULD NOT ATTEND.

Nogales—Monday evening General Elias Calles, military governor of the state of Sonora, accompanied by his staff and the splendid Third Regiment constitutionalist army band, arrived from Hermosillo to entertain the American officers at this port at a banquet and grand ball. However, the great disappointment of General Calles and the American officers, orders from Washington denied our officers permission to leave their own country, and the entertainment was declared off.

### STATE WARDEN DIES.

PHOENIX, June 9.—Officials at the state capital were greatly grieved yesterday to learn of the death at Los Angeles of Frank W. Rogers, state game warden of Arizona. Death was due to bronchial pneumonia.

### PROSPECTOR SHOOTS PARTNER NEAR RAY.

Sheriff Henry Hall and County Attorney J. G. Bogard were called to Ray Thursday to look into the matter of the killing of Jack Burns by Charles O'Neill on Wednesday of this week.

Burns owned and was operating a little vegetable garden on the "66" ranch about nine miles from Ray, and it seems that O'Neill was trying to get in with Burns and share in the vegetable crop and a dispute arose which resulted in the shooting.

A coroner's jury found that Burns came to his death from the effects of a gunshot wound in the hands of Charles O'Neill.

O'Neill is 72 years of age and the man he killed was 50.

### PLANS FOR FAIR UNDER WAY.

Plans for the Annual Midsummer Fair to be held in Phoenix in July are well under way. Exhibits from all parts of Maricopa county will be on display and complete for the prizes, which will total about \$1,000, including many medals and cups. The carload shipments of products from the Salt River Valley in 1913 reached

### CATTLE MARKET.

Kansas City Stock Yards, June 8, 1914—Closing cattle sales last week were 10 to 15 cents above Monday on killing grades. Plain heavy steers showed least activity. The army worm in Missouri, and fear of drouth in various localities weakened prices on stockers and feeders 40 to 75 cents. The supply today is 7000 head, market on killing cattle steady to weak, and weak to lower on stockers and feeders. Good to choice natives sold at \$8.85 and \$9.90 today, and prime heavy weight steers would go a little above \$9. Bulk of the native steers to killers sell at \$7.90 to \$8.65, and any weakness in prices today was made up for by good fills. Veal calves are stronger, best around \$10, stock calves lower. Prime stockers sell at \$7.50 to \$7.75, and useful cattle at \$6.75 to \$7.25. A good run of Missouri stock is here today, including 28 cars off the Milwaukee territory is being drawn on to make the modest total supply, a rain of 17 cars of Western Slope Colorado cattle being the chief contribution of this kind today. The latter sold at \$7.75 to \$8.15. Eight cars of Western Nebraska stock arrived over the Union Pacific Short Line. About 24 cars of Colorado and Western Nebraska sugar mill cattle are expected tomorrow, owners of these cattle have tested various markets recently with repeated shipments, but Kansas City salesmen have not done rivals at other markets in their sales, hence they get the entire shipment this week. Quarantine receipts are 33 cars today, market fully steady, offerings including North Texas fed steers at \$7.75 to \$8.10, and low grade Oklahoma grass steers at \$6.35 to \$6.60.

### GOV. HUNT ANNOUNCES HE WILL TRY AGAIN.

"I am a Candidate for Governor," He Says; Statement Later.

PHOENIX, June 2.—"Though I will not make any formal announcement for some time, I am a candidate for governor."

This flat-footed, unequivocal statement was made by Governor George W. P. Hunt in response to repeated requests for an announcement of his political plans for the year.

Though it has been assumed on every hand that the Governor would be a candidate for renomination and re-election, he has never before stated for publication that he is in the race. His friends have stated from time to time that the Governor hopes to succeed himself but they were without authority to make any positive announcement to that effect.

"I will make my announcement at the proper time and the campaign will be a clean one, so far as I am concerned," the Governor continued. "Right now I could say some things that would startle my opponents, to say the least, but I will not."

Candidates have till August 18 to file their nominating petitions and Governor Hunt intimated that he might not issue his formal announcement till August.

### CHINO.

The Chino Copper company in April produced 6,110,000 pounds of copper against 5,568,800 pounds in March. For the four months the total is 23,578,000 pounds against 16,068,000 pounds in the same period of 1913.

Take Plenty of Time to Eat. There is a saying that "rapid eating is slow suicide." If you have formed the habit of eating too rapidly you are most likely suffering from indigestion or constipation, which will result eventually in serious illness unless corrected. Digestion begins in the mouth. Food should be thoroughly masticated and insalivated. Then when you have a fullness of the stomach or feel dull and stupid after eating, take one of Chamberlain's Tablets. Many severe cases of stomach trouble and constipation have been cured by the use of these tablets. They are easy to take and most agreeable in effect. Sold by all dealers.

## JUDGE FRED SUTTER TO MAKE RACE FOR GOVERNOR

Judge Fred Sutter, formerly judge of the superior court of Cochise county, has formerly announced that he will make the race for the democratic nomination for the office of governor of the state of Arizona, and while in Phoenix recently was quoted as making the following statement regarding his candidacy: "It is true that I am a candidate for the governorship and I am making the race on my own merits, attacking no one and asking no support on account of the policies of any one except myself."

"I believe that I am qualified to fill the office and to give the people of the state the regime they demand and to which they are entitled. I enter the race as the friend of no special interest and am bound by no pledges of any sort whatsoever. I intend to run on such merits as I may possess, on my record in Arizona to date and on the platform which I shall announce in due season."

Asked as to what this platform would be the judge replied: "While it is not formally drafted as yet, I can give a general outline of what will be the leading features. Before doing this, however, I would like to say that I shall support the candidate chosen by the voters at the primaries with every particle of strength I can give him. I have no fight against any candidate in the field on any grounds save his policies, and if the great body of the democracy shall, in its wisdom, see fit to confer the nomination on one of my opponents I will bow to that decision and work for the chosen candidate as hard as I hope to work for myself."

"I stand for a business and economical administration of all public affairs. I believe in equal taxation for all alike, the greatest corporation and the poorest citizen, and shall attempt to equalize the burdens borne by each. I believe that taxes can be materially lowered without any loss of efficiency and propose to see that every interest, great and small, is assessed at the proper valuation."

"I advocate an amendment to the compensation laws that will put them on a proper working basis and that will provide ample and proper compensation for all injuries received in the course of employment without any necessity of an appeal to the courts. I believe that such a law will be approved not only by the labor unions, but by the corporations and other employers as well."

"If elected I shall try to give an administration that will bring labor and capital closer together. They have mutual and inseparable rights; each is to a large extent dependent upon the other and I am firmly of the opinion that a common meeting ground can and must be found."

"These will be the leading features of the platform I shall announce and I believe they will meet with general approval. I represent no faction and no interest and if elected I shall make it my business to see that none but thoroughly competent and efficient men are made the heads of the several departments of the state's activities. I have made no single promise to any one nor do I propose to do so. If the time shall come that I have appointments to fill, proved merit, evidenced by the result of close investigation, will be the only passport to favor."

The judge added that he has already visited several of the leading cities of the state and that they bring encouragement.

### RAY CONSOLIDATED.

The Ray Consolidated company reports for April an output of 6,277,000 pounds of copper, making a total of 23,816,000 pounds for the four months against 16,844,000 pounds in 1913.

## Worn Out?

No doubt you are, if you suffer from any of the numerous ailments to which women are subject. Headache, backache, sideache, nervousness, weak, tired feeling, are some of the symptoms, and you must rid yourself of them in order to feel well. Thousands of women, who have been benefited by this remedy, urge you to

TAKE

## Cardui

The Woman's Tonic

Mrs. Sylvania Woods, of Clifton Mills, Ky., says: "Before taking Cardui, I was, at times, so weak I could hardly walk, and the pain in my back and head nearly killed me. After taking three bottles of Cardui, the pains disappeared. Now I feel as well as ever did. Every suffering woman should try Cardui." Get a bottle today. E-68
